READINESS LIBYA II PROJECT

ENHANCING INSTITUTIONAL, HUMAN
AND TECHNICAL CAPACITY OF LIBYA
SYSTEM FOR CLIMATE FINANCE

**Road Map Validation workshop and Capacity
building sessions**

Concept note & Agenda of the Workshop

April 5th to 7th, 2026

1. BACKGROUND AND RATIONALE

Libya earlier benefited in 2018 during the first phase of preparation from GCF support to prepare for climate finance. The Libya Readiness Project phase 1 aimed at strengthening the capacities of the National Designated Authority (NDA) to fulfil its roles and responsibilities in connection to the GCF and coordinate with different stakeholders. This resulted in the creation of the GCF NDA, which is the main beneficiary of this project, the establishment of a non-objection mechanism, the development of a communication strategy and a gender study, as well as help fill some in capacity gaps and to promote the effective participation of relevant stakeholders (public and private sector).

This project aims to identify and strengthen the capacity of potential national entities to meet the accreditation requirements of the GCF, and provide support for the development pipeline of high-quality project concept notes for priority mitigation and adaptation projects. Further, the engagement and the role of the private sector and the civil society will be at the core of this proposal. This will strengthen the country ownership and harness the role of the stakeholders in supporting the country mobilization of resources for climate change projects.

More specifically this project will:

- Enhance the capacities of the NDA and the National Focal Point (NFP) through the creation of a permanent secretariat;
- Identify suitable entities for accreditation and roll out a clear action plan for the accreditation of the direct access applicants and accredited entities including timeline for addressing the different gaps;
- Further strengthen stakeholders' engagement following a gender sensitive approach, capacity development of relevant stakeholders on planning, programming and implementation of GCF-funded activities;
- Establish a public-private partnership which will foster the role of private sectors in climate finance, and leverage their capacity to implement programming priorities;

More particularly, the specific objectives include the support to NDA for the preparation of:

- A strategic priority projects to be submitted to the GCF, through a transparent, inclusive and consultative process;
- A country Program with strategic climate projects and ideas that outline immediate, medium and long-term priorities in line with national climate change policies and plans;
- A Framework and mechanisms to monitor and evaluate GCF's projects;
- Communication tools to increase the engagement of stakeholders
- Two concepts note for public sector project to be submitted for GCF.

Consultation process was held that included a consultation with the technical and financial partners was held in Tunis on 15th, December 2026 followed by a consultation mission to Tripoli from January 25th to 28th 2026 to meet key stakeholders and collect information required for the project, through the organization of collective workshop as well as B2B meetings with key stakeholders.

The analysis of the stakeholder's feedbacks as well as the collected data and documents allowed the preparation of a draft budgeted strategic roadmap, as part of the first deliverable.

A workshop is scheduled to take place with the aim of presenting the deliverables and further elaborating on the proposed activities and the roadmap planning. The workshop will bring together key stakeholders involved in climate change issues in Libya.

This workshop will include also capacity building sessions targeting mainly to the NDA members, on subjects related to climate finance and particularly GCF funding requirement and process.

2. OBJECTIVES AND EXPECTED RESULTS OF THE WORKSHOP

The workshop, that will be organized on April 5th, aims mainly to discuss and enrich the first deliverable of the mission and particularly the proposed strategic budgeted climate roadmap.

The 2 days capacity building on April 6th and 7th will target the GCF NDA members on aspects related to the financing of the climate projects in Libya and particularly the GCF requirements and the role of NDA.

3. PARTICIPANTS

3.1. Workshop

The participants to the workshop and meetings are mainly:

- Ministry of Environment
- Ministry of Planning
- Ministry of Oil and Gas
- Ministry of Electricity
- Ministry of Transportation
- Ministry of Industry and Mines
- Ministry of Water Resources
- Ministry of Agriculture
- Ministry of Finance
- Ministry of Local Authorities
- National Oil Corporation
- General Electricity Company of Libya
- Renewable Energy Authority of Libya
- Libyan Centre for Climate Change Research
- National Meteorological Center
- The Central Bank
- Main banks (ATIB, NURAN, etc.)

3.2. Provisional Agenda

The workshop will be organized on April 5th, according to the following agenda:

Time	Agenda Item	Responsible
8h30-9h00	Welcoming of participants	
9h00-9h30 9h15	Opening of the meeting Participants presentation Workshop Objectives & Expected Outcomes.	GCF focal point / OSS
9h15 9h30-9h45	Climate policies of Libya <ul style="list-style-type: none">- Climate change circumstance in Libya- General and sectoral mitigation policies of Libya- General and sectoral adaptation policies of Libya	ALCOR
